

Recharging Title X for Reform: Continuing a Legacy of Excellence in a Post-Health Reform Word

Jessica Swafford
April 7, 2010
Region VIII Title X Grantee Meeting
Denver, Colorado

What we're going to talk about

- A little about The National Campaign
- The Nuts and Bolts of Health Reform
- Family Planning-Related Provisions in Health Reform
- Implications for Title X
- Opportunities to Get Prepared
- Question and Answer Session

The Campaign's Mission

- Our mission is to **improve the lives and future prospects of children and families** and, in particular, to help ensure that children are born into stable, two-parent families who are committed to and ready for the demanding task of raising the next generation.

The Nuts and Bolts of Health Reform

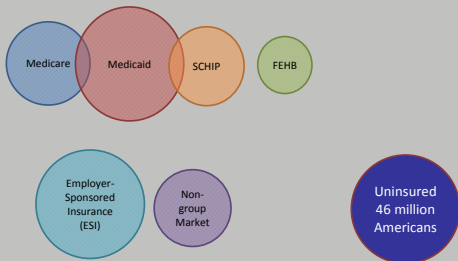

The Big Picture

- In March 2010, the Patient Protection and Affordable Care Act (H.R. 3590) and the Reconciliation Act of 2010 (H.R. 4872) were signed into law. It includes:
- Insurance “Exchanges”
- Expanded Medicaid coverage up to 133% FPL
- New patient protections and insurance reforms

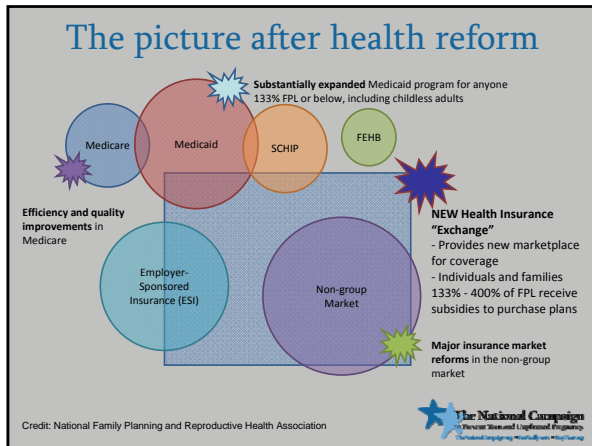

Current “patchwork” of health insurance coverage

Credit: National Family Planning and Reproductive Health Association

- ### We've made a lot of progress...
- Medicaid Family Planning State Option
 - Home Visitation Programs
 - Public health/family planning workforce
- The National Campaign
Reverses Unwanted Unplanned Pregnancy
Unintended Pregnancy Reduction Campaign

- ### ...But there's still work to be done
- Family planning should be a covered benefit
 - Included in basic benefits package, preventive benefit
 - "Young Invincibles" Plans (YIPs)
- The National Campaign
Reverses Unwanted Unplanned Pregnancy
Unintended Pregnancy Reduction Campaign

Implications for Title X

With All of this New Coverage,
What are the Gaps for Title X?

- Special Populations (teens and undocumented immigrants)
- health reform = coverage not capacity
- Training and Outreach
- LARCs

Opportunities to Get Prepared:
Remember first and foremost that you
have time!

Opportunities to Expand Clinical Services

- If you are a part of a Title X system that doesn't take Medicaid patients, **reconsider**.
- Think about outreach to **men, partners in particular**.
- **Freestanding family planning clinics** may want to consider **beginning conversations with community FQHCs**.

Opportunities to Serve as the Supporting Foundation

- **Connect with** the state agencies that will be running state-wide **home visitation programs**.
- Prepare to **apply for workforce training grant opportunities**
- **Develop strategic plans for outreach**, particularly to special populations
- **Consider** if this new world allowed you to shift a significant amount of funding to purchase **LARCs**
