99215	Comprehensive				

Service Provided	CPT Code
Initial comprehensive preventive medicine evaluation and management of an individual including an age and gender appropriate history, examination, counseling/anticipatory guidance/risk factor reduction interventions, and the ordering of appropriate immunization(s), laboratory/diagnostic procedures, new patient; adolescent (12-17 years)	99384
Same as above except for ages (18-39 years)	99385
Same as above except for ages (40-64 years)	99386
Periodic comprehensive preventive medicine reevaluation and management of an individual including an age and gender appropriate history, examination, counseling/anticipatory guidance/risk factor reduction interventions, and the ordering of appropriate immunization(s), laboratory/diagnostic procedures, established patient; adolescent (12-17 years)	99394
Same as above except for ages (18-39 years)	99395
Same as above except for ages (40-64 years)	99396
Office or other outpatient visit for the evaluation and management of a new patient that requires these three key components: a <u>problem-focused</u> history; a <u>problem-focused</u> examination; and <u>straightforward</u> medical decision-making. Counseling and/or coordination of care with other providers or agencies is provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problems are self-limited or minor. Physicians typically spend 10 minutes face-to-face with the patient and/or family.	99201
Office or other outpatient visit for the evaluation and management of a new patient that requires these three key components: an <u>expanded problem-focused</u> history; an <u>expanded problem-focused</u> examination; and <u>straightforward</u> medical decision-making. Counseling and/or coordination of care with other providers or agencies is provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problems are of low to moderate severity. Physicians typically spend 20 minutes face-to-face with the patient and/or family.	99202
Office or other outpatient visit for the evaluation and management of a new patient that requires these three key components: a <u>detailed</u> history; a <u>detailed</u> examination; and <u>low-complexity</u> medical decision-making. Counseling and/or coordination of care with other providers or agencies is provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problems are of moderate severity. Physicians typically spend 30 minutes face-to-face with the patient and/or family.	99203
Office or other outpatient visit for the evaluation and management of a new patient that requires these three key components: a <u>comprehensive</u> history; a <u>comprehensive</u> examination; and <u>moderate-complexity</u> medical decision-making. Counseling and/or coordination of care with other providers or agencies is provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problems are of moderate to high severity. Physicians typically spend 45 minutes face-to-face with the patient and/or family.	99204

Service Provided	CPT Code
Office or other outpatient visit for the evaluation and management of a new patient that requires these three key components: a <u>comprehensive</u> history; a <u>comprehensive</u> examination; and <u>high-complexity</u> medical decision-making. Counseling and/or coordination of care with other providers or agencies is provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problems are of moderate to high severity. Physicians typically spend 60 minutes face-to-face with the patient and/or family.	99205
Nurse Check Only Visit: Office or other outpatient visit of an established patient for evaluation and management that may not require the presence of a physician. Typically five minutes performing services. 99211 – NOT allowed by NDMA (use T1002 or T1003). Use this for third-party payers only.	99211
Office or other outpatient visit for the evaluation and management of an established patient that requires at least two of the three key components: a <u>problem-focused</u> history; a <u>problem-focused</u> examination; <u>straightforward</u> medical decision-making. Counseling and coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family needs. Usually, the presenting problems are self-limited or minor. Physicians typically spend 10 minutes face-to-face with the patient and/or family.	99212
Office or other outpatient visit for the evaluation and management of an established patient that requires at least two of the three key components: an <u>expanded problem-focused</u> history; an <u>expanded problem-focused</u> examination; <u>low-complexity</u> medical decision-making. Counseling and coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family needs. Usually, the presenting problems are of low to moderate severity. Physicians typically spend 15 minutes face-to-face with the patient and/or family.	99213
Office or other outpatient visit for the evaluation and management of an established patient that requires at least two of the three key components: a <u>detailed</u> history; a <u>detailed</u> examination; <u>moderate-complexity</u> medical decision-making. Counseling and coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family needs. Usually, the presenting problem(s) are of moderate to high severity. Physicians typically spend 25 minutes face-to-face with the patient and/or family.	99214
Office or other outpatient visit for the evaluation and management of an established patient that requires at least two of the three key components: a <u>comprehensive</u> history; a <u>comprehensive</u> examination; <u>high-complexity</u> medical decision-making. Counseling and coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family needs. Usually, the presenting problems are of moderate to high severity. Physicians typically spend 40 minutes face-to-face with the patient and/or family.	99215
RN services up to 15 minutes (i.e, STD checks and pregnancy tests)	T1002
LPN services up to 15 minutes (i.e, STD checks and pregnancy tests)	T1003

Medications

Code	Description	Code	Description	Code	Description
J8499*	Acyclovir	A4266	Diaphragm for contraceptive use	J3490*	Metro-Gel
J3490*	Aldara	J8499*	Dicloxacillin	J1055	Medroxyprogesterone acetate for contraceptive use, 150mg (Depo Provera)
J8499*	Amoxicillin	J8499*	Doxycycline	J8499*	Metronidazole
Q0144	Azithromycin dehydrate, oral, capsule/powder, 1g (Zithromax)	J8499*	Erythromycin	J3490*	Miconazole nitrate
J0694	Cefoxitin sodium injection, per 1 g	J7307	Etonogestrel implant system, including implant and supplies (Implanon)	J8499*	Ofloxacin
J0696	Ceftriaxone sodium injection, per 250 mg (Rocephin),	J8499*	Flagyl	S4993	Oral Contraceptive pills for birth control – per cycle
J8499*	Cephalexin	J8499*	Fluconazole (Diflucan)	J3490*	Phenazopyridine HCL
A4261	Cervical Cap for contraceptive use			J8499*	Plan B – Emergency contraceptive – Covered, effective 3/9/04
J8499*	Ciprofloxacin	J7304	Hormone containing patch, each (Evra patch) (1 unit = 1 patch)	J8499*	Premarin
J3490*	Clindamycin cream	J7303	Hormone containing vaginal ring, each (NuvaRing)	J8499*	Preven – Emergency contraceptive
J3490*	Clotrimazole	J7300	Intrauterine copper contraceptive (Paragard IUD)	J8499*	Probenicid
A4267	Contraceptive supply, condom, male, each	J3490*	Hydrocortisone cream	J8499*	Suprax (Cefexime)
A4268	Contraceptive supply, condom , female, each	J3490*	Lindane, 1%	J8499*	Terazol 7
S4989	Contraceptive intrauterine device (Progestasert IUD), including implant and supplies	J7302	Levonorgestrel-releasing IUD, 52mg (Mirena)	J8499*	Trimethoprim
A4269	Contraceptive spermicide	A4402	Lubricant, per oz.	J3490*	Vaginex 11

	(e.g., foam, gel), each (Gynol II, Semicid)				
S4993	Demulen	J8499*	Macrobid	J8499*	Valacyclovir (Valtrex)

*Drug description must include drug name and dose (mg) supplied. These drugs are unclassified and/or prescriptive, oral and nonchemotherapeutic.

Procedures (Male and Female –unless otherwise specified)

Code	Description of Service	Code	Description of Service	Code	Description of Service
57452	Colposcopy				
58110	Use in addition to 57452 if do endo bx with colpo	54050	Destruction of lesions on penis (chemical) Male	56501	Mlscm/HPV Tx/ Female
57454	Colpo with bx cervix and endo cerv curretage	54055	Destruction of lesions on penis (electro) Male	54056	Mlscm/HPV Tx/ Male
57455	Colpo with bx cervix	54056	Destruction of lesions on penis (cryo) Male	57061	Vaginal lesion/HPV Destruction
57456	Colpo with endo cerv curretage	54057	Destruction of lesions on penis (laser) Male	36415	Venopuncture
57460	Colpo with LEEP	54060	Destruction of lesions on penis (surgical excision) Male	56605	Vulvar Bx
57461	Colpo with loop electrode biopsy(s)	54065	Destruction of lesions on penis (extensive) Male	56606	Use per each additional vulvar bx. (enter in number of units) (Use with 56605)
		10060	Drainage abcess/cyst	17110	Wart/Mlscm destruction – up to 14 lesions
46900	Destruction of lesions – Rectum (chemical)	58100	Endometrial Bx	17111	Wart/Mlscm destruction – 15 or more lesions
46910	Destruction of lesions – Rectum (electro)	36416	Finger stick		
46916	Destruction of lesions – Rectum (cryo)	11975	Implanon Insertion		
46917	Destruction of lesions – Rectum (laser)	11976	Implanon Removal		
46922	Destruction of lesions – Rectum (surgical excision)	11977	Implanon Removal and Reinsertion		
46924	Destruction of lesions – Rectum (extensive)	58300	IUD Insertion		
		58301	IUD Removal		

Lab (Male and Female)

Code	Description of Service	Code	Description of Service	Code	Description of Service
87070	Bacterial; any other source except urine, blood or stool with isolation	87070	Gc, rectal	83986	PH, body fluid, except blood
80048	BMP	82947	Glucose, serum	86592	RPR/VDRL (syphilis)
85025	CBC with differential	85018	Hemoglobin		
85027	CBC without differential	87252	Herpes culture		
87270	Chlamydia trachomatis	87390	HIV (Rapid and blood draw)	82272	Stool Hemocult 1-3 determinations
87491	Chlamydia trachomatis, amplified probe technique (use with 87591)	87621	HPV (swab-amplified probe)	81000	Urinalysis, dipstick w/micro
80053	CMP	87800	Infectious agent detection by DNA or RNA; direct probe technique	81002	Urinalysis, dipstick w/o micro
88305	Colpo/vulvar/cervix/endo cervix/ endometrium bx. Gross and micro tissue exam (vaginal)	80061	Lipid panel	81025	Urine Pregnancy Test by visual color
87801	Ct/Gc (DNA/RNA amplified probe)			87899	Trich (rapid)
82670	Estradiol	88142	Pap-liquid base	87210	Wet Mount
82270	Fecal Occ Blood (cards)	88164	Pap Smear, slides (Bethesda system)		
87591	Gc, amplified probe (use with 87491)				* Must add on -90 as a modifier at the end of the code if that particular lab test is performed (sent out) to another lab besides yours.
